## Description and Features

This is a floor standing **heavy duty** refrigerated water cooler fitted with either a bubbler or a glass filler.

It has a **5 litre stainless steel** water storage tank and produces approximately 30 litres of cold water per hour.

Can be fitted with a **bubbler** or bottle filler tap.

All the nuts, bolts and screws are **stainless steel**.

A **heavy duty stainless steel** base to support the water cooler and refrigeration system

A **polished stainless steel top** designed to prevent splashing and easy access to cleaning of water drains.

All electrical wiring has **double insulation** for added safety.

The inlet water line is **15mm male thread**.

All water **lines and fittings are insulated** to prevent any condensation.

Water outlet rubber hose with 28mm outside diameter.

A **pressure relief valve** has been fitted internally to prevent high water pressure caused by thermal expansion damaging internal pipes and fittings.

**OPTIONAL EXTRA:** Can be factory fitted internally with a filtration system.

With **full stainless steel panelling** inside and outside.

A **two year warranty** on the refrigeration system.
