MODEL 2TP-80SS

Split Level Water refrigerated water Cooler

This particular water chiller is designed for schools, colleges, TAFE's and universities. The two different height stainless steel tops enable smaller students to access the taps easily without having to use dangerous steps in front of the chiller.

 (higher level) 760H (lower level),
 Boxed 800 x 360 x 1100

Weight

60kgs (Boxed 66kgs)

Cooling System

Compressor, R134a refrigerant

Colour

Stainless Steel

Power Supply

220 / 240V, 50hz, 1ph, 2.6amps, IP33,
 400watts

Description and Features

This is **two level** refrigerated water cooler engineered to enable children and adults to be able to lean over and drink from the bubblers

Fitted with **two faucets** (one per level). FAUCET OPTIONS: Chrome bubblers, Flexi Rubber Dial a Drink Bubbler or Rubber Mouth Bubbler OPTIONAL EXTRA. A Bottle Filler.

Has a **30 litre water storage tank** and produces approximately 60 litres of cold water per hour.

All panelling inside and outside are **stainless steel**.

All the nuts, bolts and screws are **stainless steel**.

With **two stainless steel tops** designed to prevent splashing and easy access to cleaning of water drains.

It has a **heavy duty Stainless Steel** base to support water cooler and refrigeration system.

Fitted with a low ambient temperature control to help prevent the water cooler from running when the outside ambient temperature is below 22 degrees C. This extends the life of the water cooler and automatically closes the refrigeration system down in cooler weather. It does not turn off the water supply.

All the electrical wiring is **double insulated** for added protection.

All water **lines and fittings are insulated** to prevent any condensation.

An **anti freeze control fitted** to help prevent the water storage tank from freezing up.

Can be **factory fitted** with a filtration system.

Designed, engineered and manufactured in Australia.

Has a **two year warranty** on the refrigeration system.
