Description and Features

This is a floor standing **heavy duty** refrigerated water cooler fitted with either a bubbler or a glass filler.

Super efficient stainless steel water exchange water system, eliminating stored, stale water, while greatly **improving the energy saving**

Can be fitted with a **bubbler** or bottle filler tap.

All the nuts, bolts and screws are **stainless steel**.

A **heavy duty stainless steel** base to support the water cooler and refrigeration system

A **polished stainless steel top** designed to prevent splashing and easy access to cleaning of water drains.

All electrical wiring has **double insulation** for added safety.

The inlet water line is **15mm male thread**.

All water **lines and fittings are insulated** to prevent any condensation.

Water outlet rubber hose with 28mm outside diameter.

OPTIONAL EXTRA: Can be factory fitted internally with a filtration system.

With **full stainless steel panelling** inside and outside.

A **two year warranty** on the refrigeration system.
